

Your energy bill

Message Center

This bill reflects BPU-approved changes in the Electric Supply and Delivery portions of your bill, effective on and after May 1, 2023.

The increase in the Supply portion of your bill is due to a change in the Transmission rate. The increase in the Delivery portion of your bill is due to the implementation of the Energy Strong II program. As a result of these changes, a typical residential customer who receives electric Supply from PSE&G, and uses 740 kilowatt-hours in a summer month and 6,920 kilowatt-hours annually, will see an average monthly increase of \$4.65 or 3.27%. Tariff information may also be found by visiting pseg.com.
